

## SERVOSTEP Propulsion Control Systems

**RADAMEC RCS™**  
CONTROL SYSTEMS LTD

[www.radamec-controls.co.uk](http://www.radamec-controls.co.uk)

### SERVOSTEP Propulsion Control System

Up to four control stations can be connected with a choice of control station transfer options. Servostep is a professional control system that provides precise speed and positional control for controllable pitch propellers (CPP) and Voith Thrusters utilising electro-mechanical linear actuators.

#### FEATURES

- Overload protection.
- Load control interface.
- Constant engine speed selection.
- Clutch engagement interlocks.
- Interface to D.P. control systems.
- Combinator control.
